WINDOWS | DOORS | CONSERVATORIES

Designed for *Living*

29/07/2013 14:33:40

welcome
to your new look home

We are the first choice for customers throughout the area. Our reputation for quality, service and price means that we are recommended by family and friends.

Congratulations! You have made the first step in buying new windows, doors or a conservatory for your home. And what a difference they will make to you and your family... improved security, reduced energy bills, less noise and virtually no maintenance - not forgetting the visual impact - these are just a few of the ways you will benefit from our products.

With our new energy efficient frames, your home will be a 'greener' home too - by reducing the amount of energy you use to heat your home, our frames will help you to reduce the amount of greenhouse gases you produce.

Our products will enhance your home and your lifestyle.

With windows, doors and conservatories in a vast array of styles and formats - you have the opportunity to perfectly tailor them to your needs and requirements.

Safe and Sound

we take your security very seriously

Frame **security**

Our products are fitted with ultra-secure multipoint locking systems, providing the highest levels of security and delivering total peace of mind.

We use top quality branded hardware. Our handles, locks, chains and letterplates are all engineered to the highest specification - giving you further reassurance that your windows, doors or conservatory will keep unwanted visitors out.

From start to finish our products are designed, developed, manufactured and installed to meet or exceed a current British standards.

Security and safety are of equal importance to us. These are not optional features.

Invest & **protect**

By investing in any of our high security window and door products you're making a big step towards a secure home.

Their considered design means these invaluable security items do not impede on the aesthetics of your windows, doors or conservatory in any way - they simply offer ultimate security and total peace of mind.

Key **features**

- Top branded, market leading hardware
- Locking window and door handles
- Multi-point hook locking system installed on all windows and doors
- Internally beaded windows and doors
- Concealed hardware - means minimal weathering and tough to access for intruders

Keeping your **family and your possesions safe** are our top priority, the style comes as standard.

All our energy efficient windows and doors are fitted with high security hook-locks and shootbolts to create a virtually inpenetrable barrier to both the elements and intruders alike.

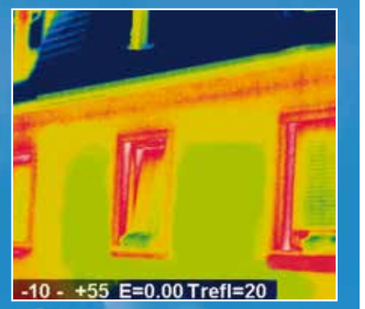
Are you living in a Green House?

Old windows, doors and conservatories are responsible for a significant proportion of wasted energy in homes across the UK
...but we have the answer!

It's easy to be green...

People today are far more aware of the methods and means of reducing their impact on the environment when compared to just a few years ago. This in tandem with ever increasing energy prices has led homeowners to make improvements to their properties. Loft and cavity wall insulation, solar panels and energy efficient windows and doors are the main areas of 'green' investment.

And when you look at this infra-red image, it is easy to see why more and more people are choosing to replace timber and even 1st generation PVC-U windows with the more energy efficient frames that are available today. It's such a simple way to save money and do your bit for the planet too.



The warmest areas seen here in red show where heat is being lost from the building.

Our products give you...

Smaller energy bills
Replacing all single-glazed windows with B-rated double glazing could save you around £165 per year on your energy bills.

A smaller carbon footprint
By using less fuel, you'll generate less of the carbon dioxide that leads to global warming - typically, 680kg a year.

A more comfortable home
Energy-efficient glazing reduces heat loss through windows and means fewer draughts and cold spots.

Peace and quiet
As well as keeping the heat in, energy efficient windows insulate your home against outside noise.

Reduced condensation
Energy-efficient glazing reduces condensation build-up on the inside of windows.

Nothing but the best energy rated frames...

We have dedicated significant time and money in developing a range of energy efficient products, all of which are capable of achieving the highest Window Energy Rating (WER) values. The WER system allows consumers to make fair comparisons (based on energy efficiency) between different window manufacturers, much the same as with white goods such as washing machines and dishwashers.

PLUS they're low, low maintenance

Life is too short to be scraping and painting at rotten old window frames - and even the old discoloured PVC-U frames need more care and attention than they used to. With our frames, all you need is a quick wipe with a warm soapy cloth.

No fuss, no mess. Done!

Frame styling

We have two classic profile styles for you to choose from, Chamfered and Sculptured profiles. Both offer superb security features, high energy efficiency and an attractive hand crafted finish. Available in a range of colour and woodgrain finishes, with a selection of complementary handles, letterplates, numerals, knockers and spyholes - you can tailor your frames to match your home perfectly - whatever the period.

Key **features**

- Multi-chambered profiles provide added strength and improved thermal efficiency
- Slim-line weatherseal maximises glazed area
- Internally glazed windows ensure improved security
- Optional thermal insert for improved energy efficiency
- Designed to replace existing frames for minimal trimming or finishing

Frame choices

We have taken the time to choose the best profile available on the market. Our profiles meet and exceed latest industry standards, giving you the peace of mind to know that you are buying quality - BSI approved quality. In addition to that we add a 10 year, no questions asked guarantee.

Additional features

If you are looking to add the finishing touch to your windows, why not consider run through horns or georgian bars. Both features embellish a window giving it real authenticity.

1. Georgian Bars
2. Run Through Horns

Chamfered

Emulates the putty line of a modern timber frame.

Sculptured

Replicates the look of traditional scotia timber frame.

PAS23 / PAS24

Specification for windows & doorsets made from PVC-U extruded hollow profiles.

BS7412

General and enhanced security performance requirements for door assemblies.

BS7950

Specification for enhanced security performance of windows for domestic applications.

Choose your colour

White | White Woodgrain | Cream

Silver Grey | Basalt Grey | Slate Grey

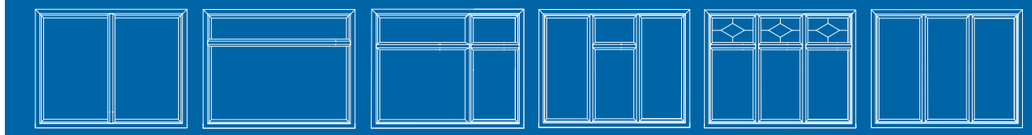
Casement windows

Casements are the most popular and versatile style of window that we offer. The number of arrangements and combinations of fixed and opening frames is endless - it really does comes down to what you want and how you intend to use the adjacent room. Select your finish and hardware from a range of beautifully crafted locking handles, and that's it - we do the rest.
Our casement windows deliver the complete solution for any property from period to contemporary.

Choose your style

These are just a few of the potential style variations available. If you can't see the style your are looking for, ask your salesman for further options.



halo option brochure redesign - rustique -line-drawings-bottom.indd 10-11 29/07/2013 14:35:03

Vertical sliding slash

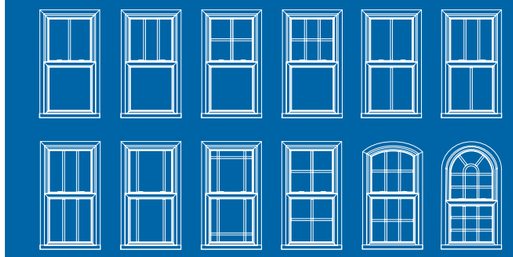
Crafted with attention to detail, our sliding sash windows combine the functional benefits and performance of a modern PVC-U window with the feel, aesthetic appeal and operational simplicity of a traditional timber window.

Our vertical sliding sash windows have a timeless elegance made with beautiful proportions and symmetry. They have the true looks of the original timber sash window of a distinguished era for which they replace, retaining all of the character of the property itself.

The modern sash not only emulates the aesthetics of their traditional timber equivalent, but they also offer additional benefits.

Choose your style

These are just a few of the potential style variations available. If you can't see the style your are looking for, ask your salesman for further options.



halo option brochure redesign - rustique -line-drawings-bottom.indd 12-13 29/07/2013 14:35:19

Tilt and Turn

Tilt & turn windows provide the ideal solution for locations where window safety and window access may be an issue.

The unique concealed hardware design means that the window can be set in one of two positions.

As a result of the unique properties of the Tilt & turn window, they are ideal for apartments or flats, from the ground floor up.

Tilt...

Tilted position

This position allows a window to tilt open, giving for good ventilation, but without comprimising safety.

...Turn

Turned position

The whole sash opens out into the room allowing for easy cleaning or maintenance.

Concealed hardware built into the frame and sash allows the window to tilt and turn in two directions. Clever stuff!

halo option brochure redesign - rustique -line-drawings-bottom.indd 14-15 29/07/2013 14:35:28

Bays & Bows

Bows and Bay windows not only add distinction and character to a house - they add space too. The 'arc' of the Bow window offers a larger internal window ledge area and the Bay actually extends the footprint of the room it fronts.

Either way - the additional space and light, combined with the high visual impact make both styles of window an extremely popular choice.

Choose your style

These are just a few of the potential style variations available. If you can't see the style your are looking for, ask your salesman for further options.

halo option brochure redesign - rustique -line-drawings-bottom.indd 16-17 29/07/2013 14:35:40

Residential doors

Residential doors are the perfect choice for both front and back doors. We stock a wide variety of decorative PVC-U door panels and glass units for you to create a truly unique entrance to your home.

Side panels, aluminium low thresholds (Part 'M' compliant) and midrail letterplates are all options available on the residential door - as too is our exclusive range of hardware.

A Stable door adds an unusual rustic touch to a modern day kitchen. The two-panel door combines functionality and flexibility.

Choose your style

These are just a few of the potential style variations available. If you can't see the style your are looking for, ask your salesman for further options.

halo option brochure redesign - rustique -line-drawings-bottom.indd 18-19 29/07/2013 14:35:49

Patio doors

The classic Patio door offers the home owner a number of benefits, with more light and space being the most notable. As a result of this, patios are well suited to porch and garden applications.

Our low threshold doors create a seamless access point from house to garden, giving you a greater sense of space - perfect for a summer BBQ or winter party.

A patio with a midrail allows for the installation of a letter plate - ideal for porch applications. All our patios come with superior security fittings (Anti jacking system, 4 point hook lock and reinforced frames), yet despite these features, the easy-glide doors carry slim sight lines allowing you to see less frame and more garden.

Choose your style

29/07/2013 14:35:53

Composite doors

Our collection of composite doors are designed with meticulous attention to every detail and finished to the highest possible standard.

Your front door is a symbol of your home, your family and your life. It's as individual as you are. It says a lot about you.

Which is why it's so important that when you choose a new door, it has to be exactly right. Not just nearly right.

After all, it's going to be with you for years to come.

Secure, stylish and energy efficient

Performance

Our doors meet the most stringent standards and will perform flawlessly for years to come.
Composite doors will never crack, split, warp or rot - and will never need repainting, unlike traditional timber doors.
These doors offer superior weather resistance, and thanks to their energy efficiency, they should help bring down your heating bills.

High Security Performance Hardware

Doors are fitted with high security, multi-point locks as standard. These doors allow you to offer a stylish welcome to your guests, but a formidable challenge for would-be intruders.
Ask about coordinating handles, letterplates and door knockers.

halo option brochure redesign - rustique -line-drawings-bottom.indd 22-23 29/07/2013 14:36:05

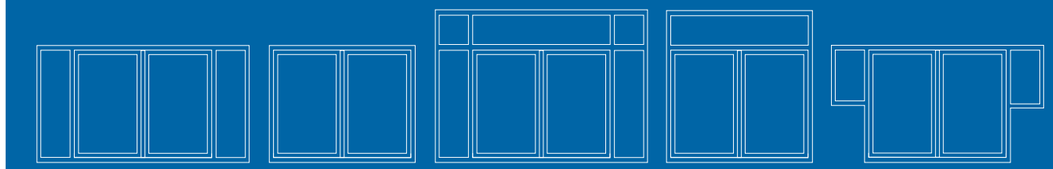
French doors

French doors extends your home, bringing extra light and the illusion of more space. They create an attractive opening to a garden or patio with minimal obstruction.

As a homeowner you will be able to enjoy a better view of the outdoors all year round. French doors are also ideal for partition wall application- from a kitchen to a conservatory area for example.

Choose your style

These are just a few of the potential style variations available. If you can't see the style your are looking for, ask your salesman for further options



halo option brochure redesign - rustique -line-drawings-bottom.indd 24-25 29/07/2013 14:36:17

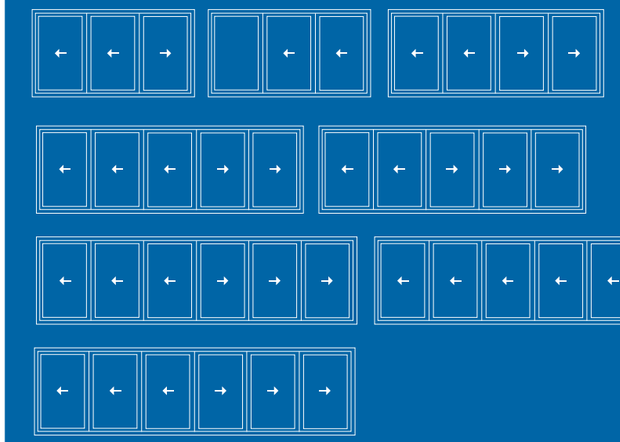
Bi-Folding doors

The bi-folding door meets the demands of contemporary living and combines this with beauty and practical functionality. These aesthetically pleasing door panels are configured into a number of concertina folds that can be pulled back to offer optimum versatility, light and access into any room.

Where an opening or partition is required between rooms, whether a small or large room, or where your home leads onto a patio or outside area and you want to extend your view of the garden, the bi-fold door is ideal for these applications. Bi-fold doors create synergy between rooms of all shapes and sizes to seamlessly connect your living space whether indoors or outdoors.

Choose your style

These are just a few of the potential style variations available. If you can't see the style your are looking for, ask your salesman for further options.



halo option brochure redesign - rustique -line-drawings-bottom.indd 26-27 29/07/2013 14:36:21

Conservatories

Adding a conservatory to your home will enhance your lifestyle, by allowing you to make the most of the outside with all of the comforts of the inside.

A conservatory will create more living space, and allow you to enjoy the benefit of natural light.

As well as enhancing the appearance of your home, it will significantly improve the value too.

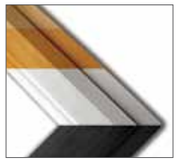
Make a statement with a conservatory that gives an air of luxury that you can enjoy all year round.

Add light and space with french or bi-folding doors.

Optional roof lights for added ventilation.

Decorative ridge and end cap detail for a perfect finish.

Large hardware selection in various polished finishes.



Choose from a selection of authentic woodgrain finishes.

Extensive range of decorative glass styles.

Choose your style
