HALLMARK PANELS

Making an Entrance

With over 20 years experience in the door manufacturing industry, Hallmark today leads the way in GRP Composite Door design, innovation and service excellence.

Hallmark Composite Doors are CE Marked in accordance with BS EN 14351 - 1:2006 and are built to the requirements of the Home Office Crime Reduction Unit's Secure By Design Initiative. This range of Elite Modern Composite doors have been certified to PAS 23 Accreditation for performance against extreme weather conditions and PAS 24 Accreditation for performance against intruder and extreme physical attack methods.

DUCK EGG BLUE
CHARTWELL GREEN

COLOUR **BOND** SERVICE

CHOICE OF FRAME **PROFILE**

Complete the look. Select from either a Chamfered or Sculptured frame profile to compliment existing windows & doors.

Chamfered

Sculptured

Hallmark's **ELITE MODERN Collection** of doors are fitted with **WINKHAUS** lock mechnisms as standard. Depending on individual needs, you can choose from the available **lock options shown below.**

Designed **SECURE**

WINKHAUS **TRU**-LOCK

WINKHAUS TRULOCK multi-point locking systems are fitted to all Elite Modern Collection doors as standard. Superbly engineered, the Trulock mechanism is approved by the 'Secure by Design' Police initiative. Manufactured to meet the requirements of a modern door design, the Trulock delivers enhanced performance using low friction hook thrust plates for a smooth, precise operation.

Secured by Design
SBD
Official Police Security Initiative

WINKHAUS **HERITAGE** LOCK

The **WINKHAUS HERITAGE** multi-point locking system has a slam-shut operation whereby the lock keep will automatically engage once the door is closed.
A key is then required to gain entry from the outside.

The key cylinder is positioned 3/4 of the way up the door - similar to traditional period doors. From the outside the lock is key operated with a chrome or gold ring pull plate and from the inside by a thumbturn (or key if used with an internal handle to aid door opening).

KEYWIND LOCK

Used with the S-Series Bar Handles, the keywind lock has the cylinder positioned at midrail height. The lock is operated from the outside with a keywind operation and from the inside with a keywind or thumbturn operation.

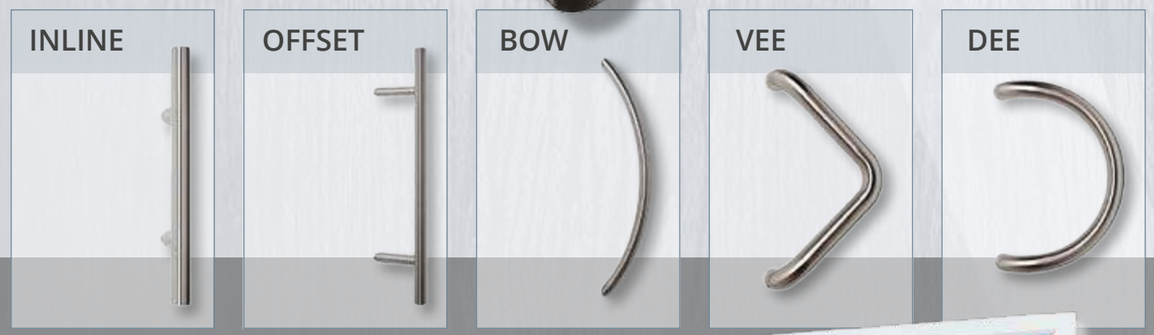
ENTRY GUARD

The Entry Guard is an upgrade option to the Lever/Lever Trulock. This integral guard bar offers a higher security level compared to a traditional door chain.

IMPORTANT: Thumbturn lock mechanisms are not fitted next to glazing panels for security reasons. Customers specifying thumbturns next to glazing cassettes do so at thier own risk.

Contemporary **BAR** Handles

In addition to the more traditional lever handle shown opposite, the **ELITE MODERN Collection** introduces brushed **Stainless Steel Bar Handles** designed to enhance the look of the modern home and create a stunning, contemporary entrance.



Inline and offset bar handles are available in 400mm, 600mm, 800mm, 1000mm, 1200mm, 1400mm and 1600mm handle heights.

PAS 24

The BS PAS 24 Standard is your assurance that our composite doors have passed a rigourous testing process to certify them as intruder proof.

PAS 23-1

The BS PAS 23-1 Standard tests the performance requirements on our composite doors to the required level of wind proofing and water tightness.

Stainless Steel **FURNITURE**

The brushed S-Series Stainless Steel door furniture collection includes matching letterplates, door letters and numbers, contemporary style ingot knocker and more traditional style Heritage door knob.

Ultimate **THERMAL** Efficiency

Thanks to a high performance CFC-free PV foam insulating core, the **HALLMARK ELITE MODERN Collection** helps you keep the warmth in and cold and noise out.

48mm Solid Timber Core Composite Door | **44mm Timber Panelled Door** | **Our 44mm Elite Composite Door**

The Elite Modern 44mm composite doors have been tested in comparison with a 48mm solid timber core composite door and a 44mm timber panelled door.

The images above show the thermal efficiency of each door type. Dark blue areas indicate lower heat loss. Red and green indicates higher heat loss.

Elite Modern Doors are:

19% more thermally efficient than the 48mm solid timber core composite door.

17% more thermally efficient than the 44mm traditional timber panelled door.
